NATURE'S LOVE FROM SWITZERLAND

## BRAND STORY

브랜드 스토리

Love. Edellis is a brand originating from Switzerland with clean nature.

## Nature's Love from Switzerland

Switzerland that embraces the nature of the Alps

Full of the freshness of green nature and the wonder of white snow mountains, Switzerland, which retains its pristine nature, is a place where its name alone is healing.

Love. Edellis, who considers nature, environment, and people first, is committed to selecting ingredients and materials, and prioritizes a sustainable future.

## Precious heart for the Earth

We make non-irritating cosmetics that can take care of tender skin or skin that is sensitive to harmful environments, and produce cosmetics with elements and ingredients that are safe for the environment.

Love. Edellis, making products with sincerity, offers the beauty of life beyond the beauty of the skin.

## Noble and beautiful life with **Love**

With sophisticated design and innovative technology, Love. Edellis products add beauty and love to life.

Also, we love animals. We do not conduct any animal testing.

## Facing a different life

A small space that you briefly pass by, daily life that is spent casually, the moment you add beauty and value to a small product, a whole new daily life unfolds.

Love. Edellis gives you the gift of the leisure of life. You can take a break for a moment. In your busy daily life, time for yourself is not far away.

## 작가 권 기 철 Artist:

Kwon Ki Chul

Merely the way to solve life with own language is different, but the heart smiling and crying dependent on inspiration and expiration is all the same. This may be the empathy. All kinds of lives exist in the world. That's the reason painters labor, and that's the very paintings. Not all the paintings are alike, but there is an abstract feeling that we can empathize with even through a jump of logic. That's why one art work cleanses disharmony of life by embracing our weak emotions and creates catharsis.
