Factory

We guarantee
Strict quality management in our own factory and
Better products through constant investments in R&D and facility.

Address: 791, Yuchon-ri, Geumwang-eup, Eumseong-gun,
Chungcheongbuk-do, Korea

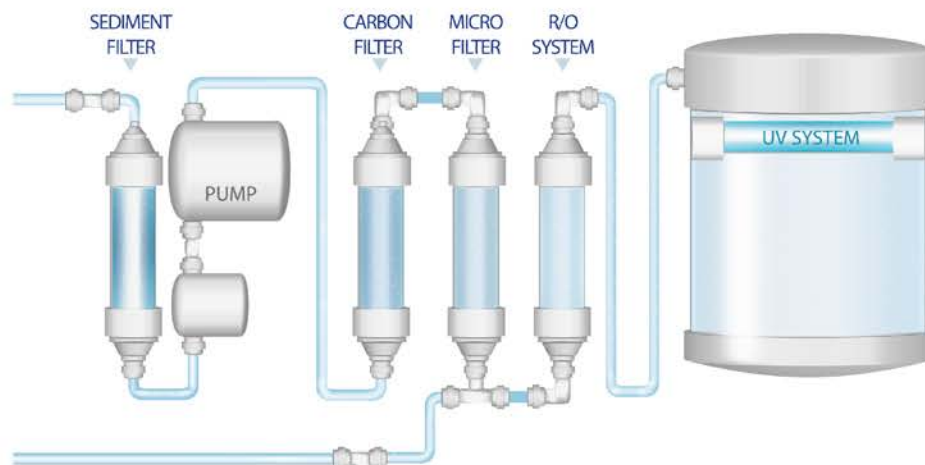

Capacity: 3,000 ton more/month
Facility: RO Purification system
Temperature management system
Auto filling system
Mixing tanks in various type and size

Purification System

Our factory is equipped with water purifying system for thorough quality management on pure water as one of major ingredients for our products. As a major ingredient of liquid product, the tap water is treated by 4-stages of RO (Reverse Osmosis) filtration at the first stage and by UV sterilization in the final stage. All products of HB Global contain "Ultra Purity".
